

# The Gray Family Foundation Geography Education Program Geography Education Program Grant Recipients Annual Reporting

## Statement of Purpose

Since 2007, the Gray family has supported students and teachers in connecting with outdoor environments through a variety of environmental literacy experiences. The goal of the Gray Family Foundation's (Gray FF) geography grant program is to spark the creativity, talent, and vision of Oregon's formal and informal teachers, schools and districts, and communities to stimulate and promote the integration of geographic concepts and ideas into K-12 curriculum and instruction.

Gray FF, through our Geography Education Program, awards grants to projects that help students develop a command of geographic tools and perspectives, foster a sense of place in their local and global community and prepare them to engage in a way that sustains Oregon's natural and built communities.

## Reporting/Renewal Requirements

The Gray Family Foundation appreciates the opportunity to bear witness to your successes and lessons learned. At the conclusion of your project, you will be expected to submit reporting materials by:

**2016 grantees: August 15, 2017**

**2017 grantees: June 1, 2018**

Future funding requests will not be considered without timely reporting.

## Reporting

Gray FF uses annual reporting as an opportunity to learn what your project was able to accomplish towards your goals. Our goal is to be brief and purposeful in the information we seek while also gaining greater clarity on how the projects we choose to fund bring us closer to realizing our mission as a foundation and our priorities in the Geography Education Grant program.

Annual reporting includes:

- [On-line report](#) completion
